

# Making Better Use of the Medical Literature: An Update on Evidence-Based Medicine

**Speaker:** **Karen Agro, PharmD, MSc**  
**Director, Agro Health Associates Inc.**

**Location:** **The Rousseau House -375 Wilson St East Ancaster**

**Date:** **Thursday June 3, 2010**

**Time:** **Registration – 6:00**  
**Program – 6:30 p.m.**

Karen holds a BScPhm (1989) and a PharmD (1996) from the University of Toronto and a MSc (2002) from McMaster University in Health Research Methodology. Karen has worked extensively in the pharmaceutical industry. She has been a reviewer for private payer formulary submissions and a lecturer and course coordinator at the Faculty of Pharmacy, University of Toronto. Karen continues to maintain her active license through part-time community practice.

Karen's advanced training and experience enabled her to establish Agro Health Associates over 10 years ago, servicing the pharmacy profession and the pharmaceutical industry. Agro Health's core business includes Market Access and Strategic Marketing Support, Health Care Communications and Continuing Education Program development.

#### Learning Objectives:

At the completion of this program, participants will be able to:

- Discuss the role of different types of literature
- Describe the levels of evidence
- List the pros & cons of different study types
- Discuss how to appraise a trial about therapy
- Describe how to appraise a detail aid

Limited Seating Open only to pharmacists.
